THE FUTURE OF FOOD TECHNOLOGIES AT CIBUS TEC FORUM

Export statistics: the research by the Nomisma Machinery Observatory

(Parma, 20 October 2022) - In the run-up to Cibus Tec Forum, the new exhibition-convention on food technology trends that will be held on 25 and 26 October at the Parma Trade Fair Centre, the Nomisma Machinery Observatory carried out research on the export figures for the Food & Beverage and Packaging technologies sector. Here are some of the most salient findings.

In the first half of 2022, Italy exported Food & Beverage technologies with a value of 1,722 million euros, and a year-on-year trend variation* of +7.8%, confirming its position as the world's largest exporter in the sector, ahead of Germany, the Netherlands and the USA. For the same period, the biggest importers of Italian technology were the USA (174 million euros, variation of +4.2%), followed by France (136 million euros, variation of +8%) and Germany (121 million euros, variation of +24.8%). The most exported types of machinery for the food sector were: appliances for preparing hot beverages or for cooking/heating food (595 million euros), bakery/pastry or pasta-making machinery (338 million euros) and, more generally, machinery for the preparation or industrial manufacture of food and beverages (224 million euros).

As far as packaging machinery exports are concerned, in the first six months of 2022 Italy ranked second internationally, behind Germany (2,689 million euros), with a value of 2,500 million euros (-5.4% compared to the previous year); and was followed by China, the Netherlands and the United States. Once again, the United States were the largest exporter, with a value of 373 million euros (despite a year-on-year variation of -6.21%), followed by France, with a value of 217 million euros (and growth of some +20.8%) and Germany, for a value of 172 million euros.

At Cibus Tec Forum, organised by Koeln Parma Exhibitions, a Fiere di Parma-Koelnmesse joint venture, discussions will focus on the future of the food sector and food tech and the 150 exhibiting companies will be previewing the latest and most
